

ACKNOWLEDGEMENTS

We would like to express our sincere thanks to the P2 pupils for their dedication, and the teachers and instructors for their valuable support and advice.

IMPORTANT REMINDER FOR PARENTS

We would like to seek your kind understanding on the following matters:

- ❖ Please be seated by 11.00 am.
- ❖ Due to limited seats, only parents are invited to the show.
- ❖ Please do not come near the stage to take photos during the performances as this will affect the video-taping process.
- ❖ Parents can take photos after the show.

Thank you.

Little Heroes, Big Footprints:
Love Food, Waste Not

Friday, 19th July 2019
Hall of Faith @ 11.15 am

Foreword

After all the hard work that has gone into preparing for this show, we truly hope you will be entertained with a great performance by our talented P2 pupils. Drama is more than just about putting up a good play. In the process of learning and rehearsing, the children have developed a strong character and acquired important speech and performance skills that will help boost their confidence and make them better communicators. They have been given an outlet for creative expression that exercises their imagination and this will help them in the classroom and beyond.

We have entwined speech and drama lessons with the theme of Waste Not, Want Not. Throughout the lessons, children have explored this theme and have inculcated it in their performances today. Exploring such a heavy topic through drama has given these young ones a better understanding of the ever growing problem of excessiveness and wastage and a deeper appreciation for the environment and the need to preserve and protect it.

We thank everyone in the school for their active support and tireless efforts, as well as the parents of our students for their unwavering dedication. We hope you enjoy the show!

Synopses

Buy and Throw Away (B.A.T.A) ~ 2H

Buy and Throw Away. This seems to be everyone's motto these days. Consumerism has led us to buy more than we need, and throw away things without a care. All of us would have found ourselves in one of the many scenarios depicted in this play, and it is time to reflect. Our greed has led us to excessive consumption, and to what end? Do we continue to let our environment suffer?

Soup To Share ~ 2G

Three soldiers took shelter in a small town one day, and discovered a dire state of affairs. Townspeople were throwing perfectly good food away whilst they were going through food shortage. The soldiers took it upon themselves to educate the townspeople on how to take advantage of the little resources they had.

The Birthday Buffet ~ 2D

The buffet culture these days is growing. Families dine and have big buffets to celebrate milestones and successes. These endless trays of food made available could potentially feed entire villages. Do you know what happens to the food that do not get eaten? They all go straight into the bin. What would the hungry children at the other side of the world feel when they see all that food go to waste? Suddenly, "all you can eat" may not sound so great anymore.

Walking Through The Rainforest ~ 2F

In the rainforest, there is a whole world waiting to be discovered...animals...plants... rivers... Nature is so beautiful. If we only know how to leave it alone! Follow some explorers as they go on an adventure through the rainforest and discover just how fragile our rainforests are and how important it is for us to take care of it. A small gesture makes a huge difference if only everyone would do their part.

Food Fit For A King ~ 2C

A simple boy got a letter from his beloved king that said the king would be paying him a visit. He was to prepare a big feast. His family got overly excited and went overboard in their preparation, much to the dismay of the wise little boy who did not approve of all the excessiveness. Watch as a simple boy teaches a mighty king a lesson about food wastage and humility.

Water For All ~ 2E

A greedy fox knew where all the water was and kept it hidden from the rest of the animals who were dry and parched. Water has become so scarce that he was afraid to share. When a group of children found where the water was hidden and started playing and splashing around, he realised that humans did not know how to appreciate the scarcity of water, making it difficult for animals who needed water to survive. Will the children learn something about water conservation?

Threat Underwater 1 & 2 ~ 2A & 2B

A group of children goes on an underwater adventure and discovers a beautiful world in the deep blue ocean in the Arctic region. However, amazement soon turns to horror as they see with their own eyes how the sea creatures suffer from humans' careless act of dumping waste into the sea. The Arctic animals are also losing their homes as the ice melts due to global warming and climate change. The children beg Mother Nature to help save the animals, but they soon learn that they have to be the change they want to see in the world.
